

OPERATION HIDDEN COSTS

HOMework FOR RENDELL

DUE APRIL 10, 2008

Since you did not do this work beforehand, it is high time to do it. You never calculated the social costs or even explored them. Independent research verifies that your claims of the benefits cannot be trusted. Your own financial watchdog agency said the cost of casino-related law enforcement might be as high as \$200 million per year, yet you budgeted \$0 for such law enforcement.

STEP 1. Name seven hidden social costs

1. _____
2. _____
3. _____
4. _____
5. _____
6. _____
7. _____

STEP 2. Produce a cost/benefit analysis

for example:

BENEFITS

\$45 million in city revenue from host fees

COST

\$240 million in loss to the state lottery

STEP 3. Debate us on the benefits of casinos
